

Assign0: Planning Schedule

Instructions:

- Read over each of the assignments in the Backlog (found in Learn course)
- 1 In the Planning Assignment column, select which task you plan on completing for each day of the Examine the Story Point chart to the right. Mouse over and Read the comment in the Story Point column's title (below).
- Assign story points to each of the assignments, based on the complexity of the task.
- Verify that the Planned Velocity Chart has an even variance and trend.

Story Points Chart

	Complexity	Complexity Description	CS Example Task	Class Example
1	1 Point	Very simple, minimal effort, well understood	Change a button's color in a web app	- Upload a photo for portfolio - Schedule a meeting with Career Services
2	2 Points	Simple task, few moving parts	Add a new field to a database and update UI	- Create Networking List - Write 5-sentence Elevator Pitch
3	3 Points	Moderate complexity; some research or testing needed	Implement login with form validation	- Complete LinkedIn or Handshake profile - Read and reflect on "Design Your Life: Chap 1-2"
5	5 Points	Complex; multiple steps or edge cases	Integrate third-party API (e.g., payment gateway)	- Write a resume or cover letter template - Conduct Informational Interview 1-2
8	8 Points	Very complex; uncertainty, multiple components	Build a basic real-time chat feature	- Resume in Green Zone on VMOCK - Conduct 4-5 Informational Interviews - Projects section for Portfolio
13	13 Points	Extremely complex or poorly understood	Refactor large legacy module or migrate backend	- Prepare for and perform Job Interviews - Create full Odyssey Plans (Design Your Life: Chap 5)
21	21+ Points	Too large - break this down	"Build entire website" — needs decomposition	- Apply to 3 jobs with custom materials - "Complete All Silver Certification Requirements" (too broad; break into
